

# SCS'S Got Talent

## Fine Arts & Science Night

Thursday, May 2, 2024 | 6:00 - 8:00 p.m.

We are thrilled to announce the return of *SCS'S GOT TALENT*, our much-anticipated annual event celebrating the diverse talents and abilities of our students. This event is a wonderful showcase of our student's creativity and provides a terrific opportunity for students to gain confidence in their skills and bring our school community together.

*SCS'S GOT TALENT* is an all-school event and ALL STUDENTS are strongly encouraged to participate. We will be asking you to decide what type of project your children will be doing next month or if they prefer, students can also assist as part of the crew.

Students prepare a project at home that can be shared with our community (younger students may need some parental assistance). The following are just a few of the examples of past projects featured at this event:

- an art or craft project
- musical solo or duet (vocal or instrumental performances)
- dance performance
- poetry reading
- science/technology or cultural project
- short video
- illusion performance

To facilitate the planning of display space and the organization of the performance schedule, we kindly request that you indicate your child's participation preferences by completing and submitting the *SCS'S GOT TALENT SIGN-UP FORM*, which will be sent home with your child after the Easter break. **The deadline for sign-up submissions is April 22**, so please ensure the form is returned to your child's classroom teacher by the deadline.

In addition to the talent showcase, we will be offering a concession at the event and would greatly appreciate any parent assistance. If you are willing to lend a hand, please don't hesitate to reach out to your child's teacher.
