STUDENT ADVISORY SESSIONS

All high school students participate

Throughout the school year, Student Advisory Sessions offer a valuable opportunity for personal and academic growth. These sessions provide a dedicated time where you can receive academic guidance and spiritual support from your teachers.

In these sessions, you'll explore your interests, set goals, and develop essential skills like self-reflection, decision-making, and problem-solving. Helping you to prepare for your future, you'll engage in meaningful discussions, build relationships rooted in faith, and receive personalized attention to strengthen your spiritual journey throughout high school.

Watch for an introductory email from an advisor at the beginning of the school year!

Advisory sessions are a great way for teachers to support students when things are tough, and celebrate with students when they find success!

MRS. WONG | TEACHER

GRACE | GRADE 11

We have a lot of great teachers at SCS who are really passionate about what they do. There have been times where I was going through things in life and my teachers were there to support me. They also encouraged me as I discovered my strength as a communicator. I really enjoy the english language art classes at SCS, and as I've been exploring post-secondary programs, I am planning to pursue a law degree with an undergraduate degree in sociology.

MISSIONS TRAINING PROGRAM | GRADE 11

At SCS, we prioritize living a mission-focused lifestyle. Each high school year, we guide students towards a life of service both locally and globally. Stepping out of your comfort zone helps you learn more about yourself, God, and the world. Following Jesus' example of training and sending, our Christian Ethics 20 features a Missions Training Program. This program challenges you to rethink what missions mean, allowing you to practice service-based living at home and abroad.

As part of the Christian Ethics course, you can join the Missions Training Program locally or globally. For many years, students have traveled to Bolivia to work with Ken Switzer's ministry, La Jornada, in Santa Cruz. Locally, students partner with organizations around Saskatoon for practical experience.

LYDIA | GRADE 12

The most memorable experience would be the Bolivia Missions trip I went on in grade 11. It impacted my view of life, as I was able to learn and experience people who have different beliefs and are faced with challenging circumstances.

ROYALS

With hard work and dedication everyone can become who they are meant to be...

JACOB | GRADE 9
