Hello Everyone,

On March 14th, 2019 the Saskatoon Engineering Student Society is hosting a Women in Engineering event. This event is for female high school students grades 9-12 who are interested in learning more about engineering. Sign-in begins at 12:30pm and the event will run from 1:00 pm to 4:30 pm

This event will allow high school students to understand more of what engineering is, to learn about our college and to network with female students, faculty and industry who were once in their shoes.

The afternoon will be broken into three parts;

1. Presentations by the College of Engineering Design teams
High School students will have the chance to talk to members of student design teams such as the Huskie formula racing team and the University of Saskatchewan Space team.
2. Women in Engineering Panel
Attendees will have the opportunity to ask engineering students, and faculty questions about their experiences within engineering
3. Design challenge
Students will be challenged to collaborate with others and think creatively to complete a design with the supplies given to them

Come experience what the University of Saskatchewan College of Engineering has to offer and the ever-growing opportunities for women in the field. To register for the event, go to <https://www.eventbrite.ca/e/women-in-engineering-tickets-55527531341>.

If you have any questions or concerns about the event, please feel free to email Regan Wilson at recruitment@sess.usask.ca.

Hope to see you there,

Manisha Jose & Regan Wilson
Vice-President Student Affairs & Recruitment and Development Commissioner
Saskatoon Engineering Student Society
